RE: Atlantic City Electric Update #2

Dear Concerned Citizen:

Recently Atlantic City Electric has been working in the South Dennis area employing tree contractors to remove branches, trees and other foliage that may sever wires/down poles and disrupt service. The Engineering Supervisor is reviewing improvement plans with various departments to minimize the interruption of service and speed the restoration process in South Dennis.

I have also recommended Atlantic City Electric perform an evaluation/review of the Belleplain section of Dennis Township. Once again, the goal is to reduce disruption of service and swiftly re-establish electric power when an outage does occur. It is my sincere hope that Atlantic City Electric will explore a timeline for this evaluation following the holidays.

The phone number to notify Atlantic City Electric of a power outage, tree/branches on the wires etc., is 800-833-7476. Atlantic City Electric also offers an *Emergency Medical Equipment Notification Program*. This program provides advance notice of scheduled outages and severe weather alerts to customers who depend on electricity for emergency medical/life support equipment. You may obtain this form on the Atlantic City Electric Website at: www.atlanticcityelectric.com. The form must be downloaded and submitted by FAX [800-254-1239] or mail.

In addition, Dennis Township residents with medical issues/special needs seniors/seniors living alone etc., may contact the Dennis Township Office of Emergency Management [OEM] for assistance at the following numbers:

- John Berg [OEM Coordinator] 609-374-2115
- Mike DeLuca [OEM Deputy] 609-334-5440
- Mike Haggerty [OEM Deputy] 609-231-5455
- Pete Stafford [OEM Deputy] 609-846-6877
- Al Di Cicco [OEM] 609-374-2182

In closing, do not hesitate to contact me regarding Atlantic City Electric or Emergency Management matters. May the peace of the holiday season sustain you through winter storms.

Respectfully,

Albert M. Di Cicco
Dennis Township Committee
